

Broad Cove Preserve presents us with multiple management objectives. These objectives include habitat restoration, invasive plant removal, shoreline stabilization, climate change mitigation and adaptation, public access, and education. This adaptive approach will become a working model for partnerships within the Peconic Estuary striving for on-going, resilient solutions to problems we face today. Partnering with key organizations will help us reach the objectives of our initial 5-year plan.

Acquisition	Year 1	Year 2	Year 3	Year 4
Preservation	Parking Area - permitting/installation	Create new trails	Shoreline restoration and management	Have RR crossing installed
	Master Plan Development	Maintain existing trails	Wetland restoration and management	Maintenance Barn permits
	Improve existing trails/access	Installation of bilingual signage	Removal of degraded infrastructure	Installation of overlooks and boardwalks
	Design and install kiosks	DEC Permitting (invasive plant removal, etc.)	Permits for overlooks and boardwalks	Invasive plant removal
	Invasive plant removal (high-priority ones)	Invasive plant removal (high-priority ones)	Invasive plant removal (medium-priority ones)	Native plantings
	Native plantings	Native plantings	Native plantings	Meadow management
	Meadow management	Meadow management	Meadow management	Install fencing, as needed
	Install fencing, as needed	Install fencing, as needed	Install fencing, as needed	Programming, Education, and Outreach
	Inventory of Vegetation and other Species	Continued Master Plan Development	Programming, Education, and Outreach	
	Begin Occasional Programming & Education	Programming, Education, and Outreach		
	Open Areas to the Public	Marsh migration planning
